Washington, July 24.—Senate and House conferees reached an agreement late last night on bills to regulate transactions in "futures" on cotton exchanges. It was said the bill would follow the lines of the Lever measure, which already has passed the house. The bill will be introduced immediately as a substitute for the Lever measure and the Smith senate bill. The Lever bill proposed a prohibitive tax upon dealings in cotton not conforming to government standards.

TAX IMPOSED ON COTTON FUTURES Bill to Regulate Gambling On the Cotton Exchange Has Passed the House (By Associated Press) Washington, July 24.—Final agreement on a bill to tax out of existence so-called gambling transaction in cotton futures was reached today by house and senate conferees. Under the measure all future contracts which do not provide for delivery of spinnable cotton of a designed quality under standards to be established by the department of agriculture, would be subjected to a tax of \$10 per bale. No tax would be imposed on futures transactions which come within these requirements, or upon trading in spot cotton. The bill would become operative six months after its enactment into law. Chairman Lever, of the agricultural committee, who will call it up in the house tomorrow, tonight predicted its early passage. He said it would mean an annual saving to southern farmers of nearly \$100,000,000, and would increase the country's foreign trade by more than \$40,000,000 a year. The measure follows generally the Lever bill passed by the house but the conferees increased the rate of taxation from \$5 to \$10 a bale to make more certain the elimination of gambling from cotton exchanges. The measure as perfected in conference has the approval of the department of agriculture, which under its provisions would promulgate an official standard of grades upon which contracts must be based. All futures contracts would be registered with the treasury department through which the public would be informed of the quantity and nature of the business transacted by the various exchanges. One provision specifically delivery on contract of "rejections," "dogtails" and other qualities of cotton unsuited for spinning and of a staple less than seven-eighths of an inch.

He was at work on a house in the Brogan mill vicinity last Wednesday afternoon when he fell from the scaffold, his back striking a joist. One of his kidneys was ruptured and the physicians saw at once that his condition was serious. He continued to sink and last night about 8 o'clock he was taken to the hospital but before anything could be done for him he died, the end coming within one hour after he had been placed in the hospital. Mr. Palmer was 47 years old and was said to be an honest and upright man. No funeral arrangements had been announced last night.

MAY WITHDRAW NAME Unless Warburg Makes Fight, President May Act. (By Associated Press) Washington, July 24.—Whether President Wilson and administration leaders in the senate will make a fight for the confirmation of Paul M. Warburg as a member of the federal reserve board was said tonight to depend upon Mr. Warburg's final decision regarding his appearance before the senate banking committee. Unless the banker within the next few days reconsiders his refusal to be questioned by the committee, it is expected that the president will withdraw the nomination and select another man for the post.

MEXIC LEADERS WILL COMBINE WILL WORK IN HARMONY TO RESTORE PEACE IN MEXICO VILLA IS WILLING Has Sent Assurances of His Willingness to Help Bring About Peaceful Relations (By Associated Press) Washington, July 21.—Official advices today revealed that the Washington administration was meeting with success in bringing provisional President Carranza, General Carranza, General Villa and General Emiliano Zapata into harmony for the restoration of peace in Mexico. From these four leaders—representing all the factions concerned in the establishment of a stable government—came encouraging messages in answer to the counsel and advice which the United States has been sending to smooth the way to a complete agreement. General Carranza promised to cooperate with the constitutionalists in the work of pacification. Two emissaries from General Carranza to General Zapata are due in Vera Cruz tomorrow and will explain to Zapata the concessions and reforms planned by Carranza. Officials were confident an amicable understanding would be reached. General Carranza through the American consuls accompanying him indicated he would make satisfactory arrangements concerning the amnesty and guarantees desired by the Carranza government. Arrives at Tampico. Carranza arrived at Tampico today. While there he will meet Reginaldo Cepeda, who has been authorized by Provisional President Carranza to make preliminary arrangements for the transfer of the government to the constitutionalists. Provisional President Carranza himself sent for the Brazilian minister who is caring for the interests of the United States in Mexico and asked him to inform the Washington government that he and his associates wanted no share in the new administration, but simply an amnesty and guarantee for the property of all Mexicans regarding the French government's claims. Carranza's attitude was transmitted today to American Consul Silliman to assist in preparing the way for the forthcoming peace conferences. Doubts which officials had expressed over General Villa's attitude also were quieted today when word came from him that he would do all in his power to restore peace in Mexico and would unite with the other constitutionalist leaders toward that common purpose. Villa's message was sent in response to the personal appeal of the Washington government. A message was received today from Charge Clause of the French embassy, who informed Secretary Bryan that an investigation by agents of the French government completely exonerated Villa from personal blame in connection with the killing at Acatecas recently of two French citizens. Frenchmen Will be Avenged. General Carranza has given assurances that those responsible for the death of the Frenchmen will be punished. This incident and other foreign complications, officials think, will be adjusted as soon as a transfer of government is effected in Mexico City. While Carranza has announced that he would repudiate debts of the Huerta government, the United States will endeavor to obtain a equitable settlement when a stable government is established. At present much interest is manifested in the investigation being conducted by Provisional President Carranza into the financial transactions of the Huerta government.

MISAPPROPRIATION CHARGED Former General Treasurer of Mexico Said to Have Gone Away With Large Sum. TREATIES SUBMITTED President Would Like Same Ratified Before Congress Adjourns. Washington, July 24.—President Wilson sent to the senate today for ratification, Secretary Bryan's new peace treaties with 20 nations providing for investigation of disputes in all cases where diplomacy has failed. They are the treaties the president wants ratified before congress adjourns. Whether they can be pushed through is considered doubtful. The treaties are with Salvador, Guatemala, Panama, Honduras, Nicaragua, the Netherlands, Bolivia, Persia, Denmark, Switzerland, Costa Rica, Dominican Republic, Venezuela, Italy, Norway, Peru, Argentina, Brazil, and Chile. The three latter were signed today. Similar conventions with Great Britain and France have not yet been signed. The foreign relations committee will meet Wednesday, when Col. Roosevelt's request for the hearing on the Colombian treaty will be considered.

SOUTHERN TO BUILD A PIER CHARLESTON WILL THE BE A SHIPPING POINT FOR FOREIGN TRADE PRES. HARRISON Sanctions the Move and is Favorably Impressed by the Advantages Offered (By Associated Press) Washington, July 24.—A. P. Thom, general counsel for the Southern railway, announced today that full arrangements have been made by that road to construct a coal pier at Charleston and afford the mines on its tracks an opportunity to transship coal at Charleston and enter into the export coal trade. The Southern railway has acquired 4,000 feet of water front in the Magnolia cemetery site and will immediately begin work on the construction of first unit of a coal pier. Daniel B. Wentz and other coal operatives in the Virginia field attending the investigation the senate is conducting of coal rates to the Southeastern Atlantic ports say they expect to avail themselves of this new outlet for their coal. "I cannot say just when the pier will be ready for coal," said Mr. Thom. "However, the money for the development has been arranged for and the company will proceed with the work as rapidly as possible. It intends to afford every facility to the coal producers along its various lines." As to whether the pier would be open to coal hauled to Charleston on railroads other than the Southern, Mr. Thom said he was not fully advised, but he felt sure the Southern would offer operators on other railroads an outlet for their product. The rate from Black Mountain and adjoining Virginia fields to Charleston is \$1.40 for export coal, the same as charged to Norfolk and other ports north of Norfolk, but the lack of facilities for transshipping coal at Charleston have made the rate practically useless. Mr. Thom said former President Finley was always much impressed by the claim of Charleston that it should have an opportunity to become a coal export port and he said that President Fairfax Harrison was of the same opinion. Rufus A. Ayres, representing the Stone's Coal and Coke Company, was among the lawyers who cross examined Dulaney today. In response to questions asked by Mr. Ayres, Diney explained his former connection with the Virginia Iron, Coal and Coke Company. He said he organized the company and was active in its management until he realized that the directors were determined to wreck it. Grant B. Seley, Hon. K. McHenry, and E. J. Berwind, were named by Mr. Dulaney as the three men responsible for "wrecking the company." To freeze out small stockholders \$800,000 of the company's funds was temporarily withheld, the witness said, and the company was thrown into the hands of receivers.

Capital City News (Special to the Intelligencer) Davis was overpowered by two negro prisoners early Friday morning on Gregg street and his club and pistol taken from him. He also was relieved of \$20. It was said this morning the prisoners escaped, taking the pistol, club and money. Mr. Davis received painful injuries in attempting to retain custody of the prisoners. Dr. James H. McIntosh was much improved today. He had no statement to make. The Parker Land company of Greenville has filed notice of a decrease of capital from \$100,000 to \$65,000 with the secretary of state.

HOT WEATHER. Washington, July 24.—Intense heat continued throughout the central valley generally today but cooling breezes brought relief at some points. Terre Haute, Ind., with a temperature of 100 degrees was the hottest city in the country and temperatures elsewhere in the central and Mississippi valleys and the plains states registered from 91 to nearly 100. RATES NOT UNREASONABLE Apples Shipped From Shenandoah Valley Upheld by Commission. (By Associated Press) Washington, July 24.—Existing freight rates on apples from the Shenandoah valley and the eastern slope of the Blue Ridge Mountains in Virginia to New York, Philadelphia, Baltimore and Washington were held by the interstate commerce commission today to be not unreasonable. In the dismissing of a joint petition of Virginia producers and New York dealers for reduction of rates and separation of the commission made this general ruling: "The fact that a carrier has published rates which contravene the long-and-short rule without authority therefore is not of itself a sufficient basis for and award of reparation, in the absence of proof of damage to the shipper."
